Townhouse for sale

Price: €695,000

Bedrooms: 4

Bathrooms: 4

M2 Living: 280²

M2 Plot: -

M2 Terrace: -

Address: Javea, Alicante

QUITE SIMPLY SPECTACULAR !! Very few, if any, Townhouses offer you the luxury living that this property gives you. Originally owned by the Architect of this development the footprint is infact double the size off the other Apartments, this becomes clearly evident from the spacious living and dining room, seperate TV room and to say that the bedrooms are doubles would be an understatement !. LOCATION LOCATION Just a stones throw away is Javea`s ancient harbor, still with a fishing fleet but with the addition of a modest marina (modest enough to keep out those vast floating gin palaces that clog up so many marinas along the coast). You really could sit on the spacious terrace and watch the fishing boats come back late afternoon, take a stroll down with your dog (if you have one) to the fish market and buy your dinner. And you could eat that (still on the terrace) and watch the sun set. The quality materials used are a delight and there REALLY are just too many points too mention, if you are looking to purchase something different than whats normally on offer then why not come and see for yourself . Call us to arrange a viewing and prepare to be amazed.
