Address: Cumbre Del Sol, Alicante

This villa located in the popular Cumbre del Sol Urbanization, situated on the first line to the sea, on one of the few plots that remain with this location and with these stunning views of the Mediterranean Sea. It is distributed in two floors. In the main level we have a spacious living/dining room with a large open kitchen, two bedrooms, the main one with an en-suite bathroom, a toilet and a terrace. On the ground floor there are two bathrooms, two bedrooms and a laundry room, all at the same level as the terrace with pool, barbecue and summer kitchen. The house has an alarm, central heating (gas system), storage room and garage. It belongs to a community of owners. And in addition to having an exceptional situation and a very good orientation, you have many possibilities to change the Mediterranean style for a modern or Ibiza style while keeping the harmony and privilege of being so close to the sea. We also enclose some images of a project that a local architect has produced to give us an idea of how this magnificent house could look after renovation.
