Address: Finestrat, Alicante (Costa Blanca South)

LUXURY APARTMENTS WITH SEA VIEWS. Mediterranean Views II is a private residential, designed for you to enjoy both, sea and nature, in one of the best valued areas of the Costa Blanca: Sierra Cortina - Finestrat.

If there is something that stands out on Finestrat, it is its natural environment. The old town is standing at the foot of Puig Campana's mountain, while La Cala de Finestrat is the place where tourists who want to enjoy the sea drop by. Halfway between sea and mountain, we find one of the most exclusive residential areas of Northern Costa Blanca. An environment dotted with villas and luxury residential areas, to enjoy exceptional skyline of Benidorm. The leisure offer in Benidorm town, the proximity of its beaches and its climate, make Sierra Cortina - Finestrat one of the most attractive destinations for those looking to enjoy sea and nature.

Mediterranean Views II is formed by 5 blocks of apartments, distributed in only 57 houses in which bright and cozy spaces predominate. The houses have 2 bedrooms with 2 and 3 bathrooms, but for customers who need more space, there is a choice of 3 bedrooms, in the ground floor and in the penthouses.

All houses include fully equipped kitchen, open to the living room, in which a large window gives way to the spacious terrace with glass balustrade, which offers amazing views of the common areas of the residential and Benidorm skyline. In addition, they include air conditioning ducts, underfloor heating in bathrooms, home automation system, LED lighting and parking, among others.

But without a doubt, the most impressive of Mediterranean Views II are the common areas, taken care of in detail, to offer a relaxing atmosphere, perfectly integrated with the environment. The back of the residential area, offers a beautiful green area, through a beautiful grove that has inclined and recreational areas, and that will allow you to get a quiet walk to the large pool area with Wi-Fi. The pool rises in two heights, which are connected by means of a modern waterfall, where you can enjoy a refreshing swim at the top, or relax in the hammock area at the bottom.

In addition, you will have a gym to enjoy sports and a Spa area, which will allow you to relax and take care of your health.

If you are looking for a residential that allows you to enjoy all the comforts of this fantastic environment, do not hesitate and contact us to inform you!
