A beautiful resort located on the stunning coastline of the Costa Calida.

Its design and architecture blends in with the beauty of the natural surroundings where it is located, respecting and enriching it. Thanks to being high up, the homes have been designed to make the most of the natural light, with spectacular views of the Mediterranean Sea from their large terraces. The noble materials, the use of the mountain's morphology and the huge amount of vegetation create the perfect harmony between the homes and their natural surroundings. The town of Águilas is set on the coast, where there are 35 beaches with different types of sand located in different landscapes, ranging from coves and virgin beaches in natural spots to the urban beaches of Águilas. It has a hot desert-like climate right through the year and an average temperature of 22° with mild temperatures in winter and very hot temperatures in the summer. Águilas is surrounded by the mountain ranges Sierra de la Carrasquilla, the Lomo de Bas and la Sierra de la Almenara, which are united in a network of trails that come together in part of the Nature reserves of Cabo Cope and Puntas de Calnegre. Águilas is a perfect spot for snorkelling, water sports, hiking and golf.
