The residential is built with a new concept, with a current style and modern design, following a linear architecture. The open and interconnected spaces are characteristic in the construction of the residential complex, allowing different types of environments to be created in the house.

The construction of the complex is carried out in two heights, with the option of 2 or 3 bedrooms, being able to choose between ground floors with a garden or upper floors with a private solarium, all homes have a garage included in the price, and unbeatable open views.

Torrevieja is known for its gastronomy, which is characterized by its quality product from both our sea and our nearby garden.
