Address: El Campello, Alicante, 03560

Next construction of exclusive independent villas in El Campello.

In this residential, located on the seafront, we are going to build 5 unique and exclusive independent, modern chalets with an avant-garde design combined with the best finishes; with magnificent views of the sea and the coast.

A dream to enjoy with the family every day of the year, in a paradise of 400 m2 of housing plus an independent plot, with all the technical advances.

An exhaustive and meticulous construction process is being applied, creating a rational distribution of space and at the same time generating well-connected and large rooms, a practically free construction, which means that there are no interior pillars that prevent a reorganization of the interior space.

The energy savings achieved can be greater than 70% with respect to conventional energy.

It is a new residential concept in an incomparable setting for a unique project.

We have taken care of every last detail so that clients can live luxuriously.

Its location on the Costa Blanca guarantees all the services around the house, a climate with an average annual temperature of 20°C and all the gastronomic, cultural and leisure offer that could be desired in the surroundings, with the cities of Benidorm and Alicante within easy reach. 15 min by car.
